I make an access program Paper Tiger Television about
the impact of mainstream media on our social + political lives.
Public Access Television is the only place where I can make and show my
own programs. My interests are not always conveyed in the mainstream
media, but I can express my opinions ~~and~~ hear other people's on my PEG
access channels. If the cable company (or anyone) is allowed to censor
programs, for any reason, an invaluable free speech forum will be
destroyed. I urge you to consider the Alliance's comments favorably.

It is my understanding that a ban is being considered which would prohibit political candidates from using actual footage or pictures of real abortions and the remains of the destroyed babies. This is not just a matter of inhibiting freedom of speech; this ban would mean suppression of truth. Please let the public see the truth and then be allowed to decide.

Dear Mr. Gross,

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Greetings for a new year.

In my opinion all the political ads of Mike Bailey were very good. There was nothing in them that the average guy on the street would consider obscene; most people wanted to know when they were going to be on so they could wait to catch a viewing.

The only people complaining about the ads were a few who had a different political opinion and may have worked at some of the TV stations.

Please maintain
present rules
protecting Mike
and other candidates.

Very truly yours,

David Jeremiah

Dear Mr. Secretary,

I am opposed to restrictions on the content of political commercials on television. The voters of this country deserve the opportunity to make up their own minds about the qualifications and positions of political candidates. A politician must have freedom to express his viewpoints; the voters can draw their own conclusions. It is an infringement of the freedom of speech protected by the First Amendment for the FCC to decide what does and what does not constitute appropriate issues to discuss in a political commercial.

Especially since the television, radio, and newspaper media commentators and reporters present their particular positions as "facts", it is all the more important for political candidates to be able to present their own positions in the ways they consider most effective.

Thank you very much for your consideration.

Sincerely,
(Miss) Margaret Heller

I am writing in regard to the consideration of giving TV station managers more power to decide whether Federal political ads showing abortions can be edited.

I am very concerned about giving this power to TV managers. Their indiscriminate editing of Federal political ads might even change the 'flavor' of a candidate's political campaign. Within the standards of decency, each candidate must be able to exercise his freedom of speech.

Pictures of aborted fetuses are no more grotesque then accident victims on the "911 Emergency shows on TV", or the starving children in Somalia, or the action-packed thrillers full of violent scenes. At least aborted fetuses are a fact of life since 1.6 million abortions happen yearly. Why is the media so afraid of covering the facts about abortion? It seems like we would rather hide from the grim realities of abortion because it makes us feel uncomfortable. Yet, the slaughter of 30 million babies since 1973 continues.

Political candidates must have the right to present their platforms without the indiscriminate editing by a station manager. Abortion is a terrible fact of life in our culture, and the candidate who wishes to make pro-life an issue has the right to show abortion's realities in his campaign ads.

Please do not allow the liberal media this additional editorial tool.

Sincerely,

Crys Mach

DEAR SIR,

I UNDERSTAND THAT YOUR AGENCY IS CONSIDERING WHETHER 92-25L PRO-LIFE CANDIDATES CAN BE PERMITTED TO USE GRAPHIC PRO-LIFE ADS ON TV. I SAY, WHY NOT? AT LEAST WHAT THEY'RE SHOWING IS THE TRUTH WHICH IS MORE THAN WHAT I CAN SAY FOR THE MOST OF THE REST OF THE DAY.

WHY SHOULD THESE PEOPLE BE CENSORED BY THE PRO ABORTION ELEMENT? IF PEOPLE WERE PRESENTED WITH A LITTLE MORE OF THIS GRAPHIC INFORMATION, PERHAPS WE WOULDN'T HAVE TO ABORT OVER 1,500,000 BABIES PER YEAR.

PLEASE LET THINGS AS THEY HAVE BEEN SO THAT THESE PRO-LIFE CANDIDATES ARE NOT CENSORED FROM SHOWING THE TRUTH.

TO WHOM THIS MAY CONCERN:

I am writing to voice my concern that the FCC will be ruling shortly, on whether or not pictures/videos of aborted babies may be used in the campaign ads for candidates running for Federal offices. Although these pictures/videos are gruesome to look at, the fact remains that abortion has gruesome consequences. Someone always dies. I believe that it is within the guaranteed 1st amendment rights of a candidate for Federal office to express their personal beliefs during a campaign, in the manner that the candidate judges necessary, in order to reflect these beliefs. There are many of us who believe that abortion is murder, and continue to work for its ultimate demise, however politically incorrect this position may be. Please continue to support the guaranteed rights given to us by the United States Constitution, even if we do not agree. I ask that you will rule to continue to allow that the pictures/videos of aborted babies can be shown in campaign ads by candidates running for Federal offices.

Dear F.C.C.

It is my understanding you are receiving comments on whether you should allow political candidates to air ads which depict aborted fetuses. Please consider my comments on this issue:

The horrid truth about abortion, that the "products of conception," or whatever euphemism you choose to use, looks very similar to an infant, needs to be seen by all. This includes children as well as adults. The children will be much less likely to ignore the truth than their parents since what they see is not really very different than them (the children). Hiding the evidence will not lead to a solution to this problem which takes 4000+ lives each day in our country.

If the argument to prohibit the ads is ~~based~~ on protecting the minds of our children (emotions too) this argument could be applied to much of what they see on TV multiple times each day.

17 January 1993

Abortion is murder and if this is what it takes to cause us to admit it, then let it be done.

Prohibiting these individuals from airing these ads would be an outright denial of first amendment rights.

I sincerely wish these ads would not be necessary but something has to be done to stop the carnage. I believe the ads should be allowed.

Thank you for your time.

Dear Mr. Sikes:

I understand you are seeking public opinion on restricting what can be shown in political campaign ads, because of the recent inclusion of abortion graphics in some ads.

I think it is essential for the public to know where a candidate stands on abortion and other moral issues. If you place restrictions on candidates, you will in essence censor Christian and pro-life candidates from the airways. They will not have freedom of speech to let the public know where they stand on these important issues.

To the hypocritical media who claim truth-telling pictures about the abortion industry are obscene or offensive, I would tell them to cease showing us films of the starving children, victims of war, bloodied victims of other devastating events (natural or man-made) and cease their glamorization of violence and crime on their "entertainment" shows.

I personally feel that if just one honest documentary program about the true nature of the abortion industry were shown on TV, the number of abortions would drop drastically! But the secular media will never do this highly "politically incorrect" thing so at least allow some honest, decent political candidates the opportunity to state their beliefs on the subject! This will be the only way the public will even get a glimpse of the truth that the media consistently hides from them.

Sincerely,

Gladys Calloway
